

NAME

get_version - version getter for the library

LIBRARY

Electrochemistry library - (**-libecx**, **-lecx**)

SYNOPSIS

```
function get_version()result(fptr)
```

DESCRIPTION

This function returns the version of the ecx library.

RETURN VALUE

character(len=:), pointer ::*fptr*

NOTES

The C API is defined by the following prototype:

```
char* codata_get_version(void)
```

The python wrappers embeds the version of the version in the top level variable `__version__`.

EXAMPLE

Fortran

```
print *, "version = ", get_version()
```

C

```
printf("version = %s0, codata_get_version());
```

Python

```
print(f"version = {pycodata.__version__} ")
```
